

TSDS Upgrade Project Go Live 2024-2025

July 18, 2024

September 2021 August 2023 September 30, 2021,

Optional: TSDS vendors participated in pilot program to develop and test their product solutions.

Optional: LEAs partnered with their vendors to conduct end-to-end testing in preparation for parallel submission.

August 2023 August 2024

November 9, 2023,

Required: All TSDS vendors test their product solutions. Optional:

Are you Ready?

Confirm the ability of your Technology Department and software vendors to submit data through an API rather than XML. If your vendor product is listed here <u>Vendor Data</u> <u>Completeness Scorecard</u>, your vendor is actively working with TEA on this project.

If your vendor is not listed, or your Technology Department indicates they are not ready for the API technology upgrade, please contact the TEA TSDS Vendor Coordinator immediately at TSDSOustomerSupport@tea.Texas.gov.

TSDS Portal Update in 2024-2025

When LEA TSDS team members access the TSDS Portal to submit data for the 2024-2025 school year, the function to load data through an XML format <u>will no longer</u> be available.

If unable to provide data through an API, your LEA will not be able to complete the required TSDS or PEIMS collections.

Plan on your TSDS teams spending more time in training and configuring the system for the first upload via API. It will be imperative that all
